Important Information

1. If your medical plan eligibility terminates, your Active&Fit® membership will terminate concurrently. Reinstating an Active&Fit® membership requires payment of another annual member fee of \$100 for the Fitness Center Program or a \$10 annual member fee for the Home Fitness Program.
2. Please check with your health plan administrator regarding your group's annual Active&Fit® renewal date. Your Active&Fit® membership is effective until your group's annual renewal date, regardless of when you personally enroll. You must then pay the annual member fee to continue your membership upon your *group's* annual Active&Fit® renewal.
3. On your renewal date, your Active&Fit® online account will indicate it is time to pay your annual fee. Follow the steps outlined above for **Enrolling in the Fitness Center Program** or **Enrolling in the Home Fitness Program** to renew your membership. Be sure to do this before your first visit to a fitness facility on or after your renewal date. In some cases, your facility may ask you to renew an annual contract onsite. No additional payment will be required.
