

See a Doctor Online or by Phone HiDoc® User Guide

Please verify with your plan administrator that this service is available to you.

Our free telemedicine service, HiDoc® (hosted by CloudWell Health), provides virtual access to a local doctor, day or night, usually within 30 minutes from anywhere, or enables you to schedule an appointment for a later date and time. You may schedule a phone or video consultation for non-emergent medical situations, routine medical care when your primary care physician is not available, urgent care conditions commonly treated through telemedicine, and mental health concerns. Consultations are confidential and secure. Unless specified otherwise by your health plan, a HiDoc telemedicine visit has **no out-of-pocket cost!**

Telephone Consultations

- Call the HiDoc® Call Center at **(808) 400-4113**.
- You will need to provide your **Member ID** located on the front of your health plan ID card and **Date of Birth** to verify your eligibility.
- A HiDoc® representative will help you set up your account, schedule a consultation, and provide further instructions.

You may also schedule phone consultations using your HiDoc® Online account at www.HiDocOnline.com.
